

## Hinged door for wall slab system

The butt hinged door is adapted for the demands of GMP laboratories and is mounted without a frame. It consists of a tubular chipboard wood core coated with a high-pressure laminate

and has an ABS edge strip for additional protection. High-quality components for handles, hinges and locking system complete the door leaf.

### Dimensions

Height	1.972 - 2.347 mm
Width	959 -1209 mm
Clear passage width	909 - 1159 mm (with door open 90°)

### Door leaf

Type	wooden door 40 mm, tubular chipboard, climate class II, stress group S, suitable for humid rooms, tightly closing
Surface	HPL 0.8 mm, color Duropal door collection
Edges	ABS edge RAL 7035 (light gray)
Handle height	approx. 1050 mm
Pushers	stainless steel rosette set
Hinge system	Simons, Tectus (stainless steel)

### Special fittings, additional

Fitting	fitting according to choice
